

BAKTOSAN

An agent for quick disinfection of machine surfaces, tables, knives, cutters etc. without the need for rinsing. Safe for surfaces of all types. Having strong bactericidal and fungicidal properties

Ingredients: Active Ingredients: 50g / 100g propane-1-ol, 30g / 100g propane-2-ol.

Storage: Store in a tightly closed container factory at 0°C to 30°C in a well-ventilated place.

Safety: Highly Flammable. Risk of serious eyes damage. Vapours may cause drowsiness and dizziness. Keep container tightly closed. Do not store in near sources of ignition - no smoking. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear protective goggles. If swallowed, seek medical advice immediately and show the label.

Usage: Spray onto the surface to be disinfected in a thin layer, until the surface is wet. Spraying distance of about 30 cm.

Do not dilute.

Disinfecting duration: 5-15min

Temperature: 10-30°C

Does not require rinsing.

Disinfected surfaces can be used when completely dry.

ELOXAN GL

A strongly alkaline gel intended for cleaning commercial kitchen equipment (grills, grids and gratings) from heavy organic soiling. Removes stains from ceramic and stainless steel surfaces. Lemon-scent

Ingredients: Potassium hydroxide, anionic and non-ionic surfactants, fragrance, colorant.

Storage: Store in a separate well-ventilated storage room in temperature between +10°C and +35°C in a tightly closed factory container. Protect from direct sunlight.

Safety: Irritating to eyes and skin. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. In case of contact with skin immediately remove contaminated clothing and wash skin with plenty of water. Wear protective gloves. If swallowed, seek medical advice immediately and show the label.

Methods of use:

Atomizer

Ready-to-use

Operating time

Rinse with warm water (40°C-50°C)

It is recommended to wash grills, ovens and furnaces at 30°C-40°C
