1. General safety instructions

Before first use read the manual carefully and follow the instructions contained therein. The manufacturer is not liable for damage caused by equipment used inappropriately or by incorrect handling.

1.1. Intended use

1. The device is designed for shredding honeycombs.
2. Before use the device must be thoroughly cleaned using detergents allowed in food industry using a soft cloth. After cleaning rinse the device and allow it to dry thoroughly

1.2. Operation safety

- a) Set the device on a surface that allows full stability
- b) Do not put your hands or fingers into the feeding funnel while shredding the honeycombs. Doing so may cause serious injury
- c) The device is not intended for use by persons (including children) with limited physical, sensory or mental abilities, or by inexperienced users, unless under supervision or with instructions given by an accountable party. This device is not a toy, and shouldn't be used as one. Children should not to play with it.

2. Instructions for use

The device's intended use is to crush/shred honeycombs. It is necessary to place the device in the place dedicated for its operation before starting the work. Place a container under the device to gather the crushed honeycombs.

2.1. General instructions – preparation for use

An additional technical and operational check should be carried out before the start of each harvesting season. Clean thoroughly and start the shedding process.

3. Product design

Description:

1. Manual drive (crank)
2. Powder coated frame
3. Feeding funnel
4. Shredding assembly

Fig.1

Fig. 2

3.1. Technical specifications

- acid resistant stainless steel main body
- powder coated steel frame
- polyamide PA6 shredding shaft
- length – 350mm.
- width – 250mm.
- height – 350mm.
- Weight – 12,5 KG.

4. Storage

Before first use and after finishing work the equipment must be thoroughly cleaned and dried.

An additional technical check should be carried out before the start of each harvesting season, and if any defects are found, please contact the manufacturer.

5. Cleaning and maintenance

IMPORTANT!

Before first use the equipment must be thoroughly cleaned and dried.

Clean with hot water using detergents allowed in food industry using a soft cloth.

After cleaning rinse the device and allow it to dry thoroughly.

Store the device in a dry room.

Do not use any chemical agents to protect the devices elements.

6. Warranty

The product purchased from the Lyson Company is covered by a manufacturer's warranty. The warranty period is 24 months from the date of purchase.

All purchased products come with receipts or VAT invoices.
